PROFILE

MCA graduate skilled in business and data analysis, with hands-on experience translating business and compliance requirements into technical rules, workflows and dashboards using SQL, Excel and Power BI. Currently gathering requirements and mapping automation workflows as an AI SDE Intern at Odin AI; previously built a compliance analytics platform (rule engine + risk dashboard) at Sensation Software Solutions. ISTQB Foundation Level certified. Comfortable across requirements gathering, data analysis, dashboarding and stakeholder reporting, with working exposure to AI/ML and automation platforms as a differentiator.

EXPERIENCE / INTERNSHIPS

AI SDE Intern | Odin AI

Aug 2026 – Present

- Requirements & Process Mapping:** Gathered requirements from business stakeholders (HR head's requirements document, senior's project brief) and translated them into workflow specifications for a recruitment automation platform and an AI lead-generation & outreach system.
- Data-Driven Workflow Design:** Analysed lead, company and candidate data to define qualification criteria, matching logic and reply-classification rules powering the outreach and recruitment pipelines.
- Stakeholder Reporting:** Tracked daily progress, bugs and feature requests in a shared reporting sheet, and walked stakeholders through workflow designs ahead of implementation.

AI Full Stack Intern | Sensation Software Solutions

Jan 2026 – Jul 2026

- Requirements-to-Rules Mapping:** Translated regulatory and business compliance requirements into a configurable rule engine, keeping the system aligned with evolving regulatory needs.
- Data Analysis & Risk Reporting:** Analysed structured data to identify risk patterns and generate automated compliance reports with actionable insights for stakeholders.
- Dashboard & Stakeholder Reporting:** Built an interactive dashboard visualising compliance status, risk scores and flagged anomalies for faster, data-informed decisions.

MERN Stack Intern | Sensation Software Solutions

May 2025 – Jun 2025

- Full-Stack Development:** Built and deployed web application modules using MongoDB, Express.js, React.js and Node.js, owning both frontend and backend components as part of a structured Agile team.

PROJECTS

AI Lead Generation & Outreach System | Odin AI

Sep 2026 – Present

- Analysed lead and company data to define matching criteria and outreach segmentation; designed the workflow architecture for a system that automates research, personalisation, follow-ups and reply-classification reporting.

Compliance Analysis System | Sensation Software Solutions

Jan 2026 – Jul 2026

- Mapped regulatory requirements into a rule engine paired with a RAG pipeline (Hugging Face embeddings + Qdrant) that retrieves relevant regulatory text for each entry and flags violations with explanations.
- Paired system output with a stakeholder dashboard for auditable, real-time compliance reporting.

AI-Powered People Tracking & Analytical System | MCA Capstone, under Dr. Anchal Thakur

Feb 2025 – May 2025

- Analysed real-time crowd density data from an ESP32 Wi-Fi sniffing setup to predict movement trends and trigger automated SMS alerts for emergency and traffic scenarios.

SKILLS

Business & Data Analysis: Requirements Gathering & Rule Mapping, Business/Process Analysis, Data Analysis (SQL), Dashboard & Insights Reporting (Power BI, Excel), Risk & Compliance Analysis, Stakeholder Reporting & Communication

Analytics Tools: SQL, Power BI, Excel (Pivot Tables, Formulas), Google Sheets

AI & Automation (Differentiator): AI Agents & Multi-Agent Workflows, Odin AI Platform, RAG Pipelines, LLM Integration (Claude, Groq/Llama), Hugging Face Embeddings, Qdrant, Prompt Design, n8n

Programming & Tools: Python, Java, Git, Postman

Testing & QA: Manual Testing, Test Case Design, UAT, STLC/SDLC

EDUCATION & CERTIFICATIONS

MCA — Chitkara University

2024 – 2026 · Punjab

BCA — Guru Gobind Singh Indraprastha University

2021 – 2024 · New Delhi

Certifications: ISTQB Foundation Level · Web Development · Rudiments of AI & GenAI Tools · Java Programming for Beginners
